

The main page of the app:

The red circle 1 is **Menu List**. The read Circle 2 is **address search** button.

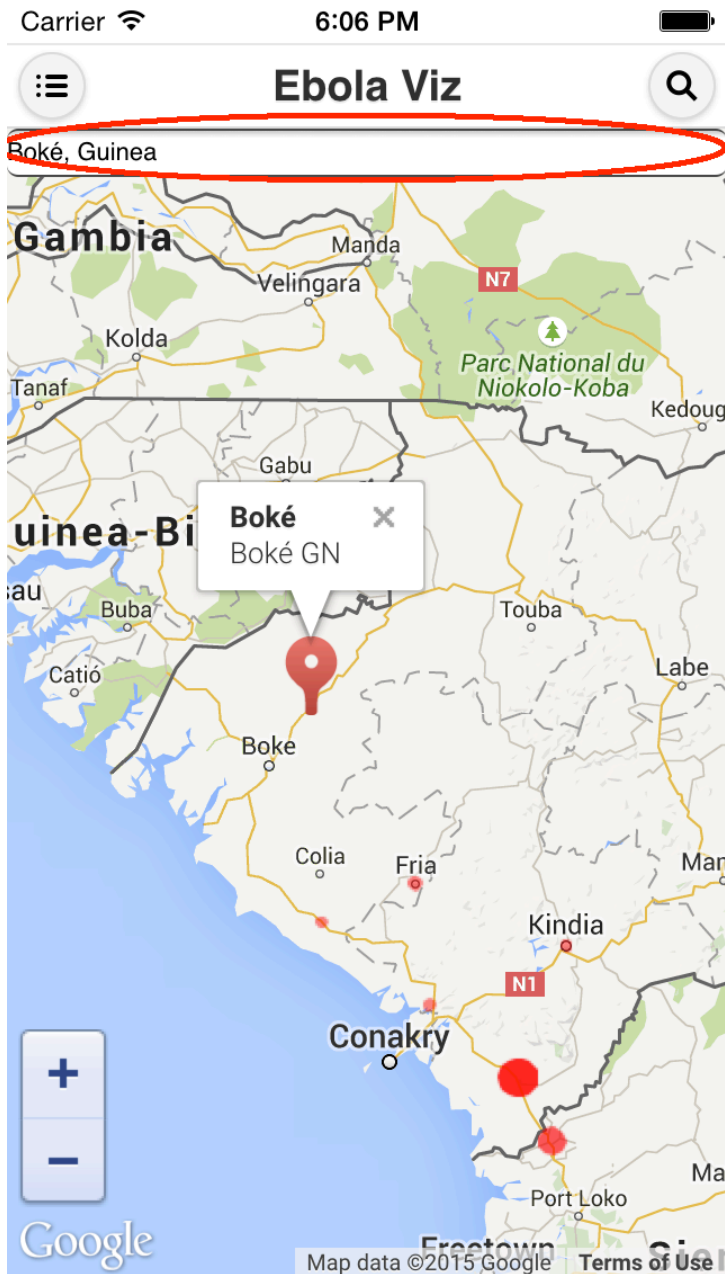

+ and **-** are zoom in or zoom out. Or you can use two fingers to zoom in and zoom out.

Click the **Menu List**, a panel will be shown:

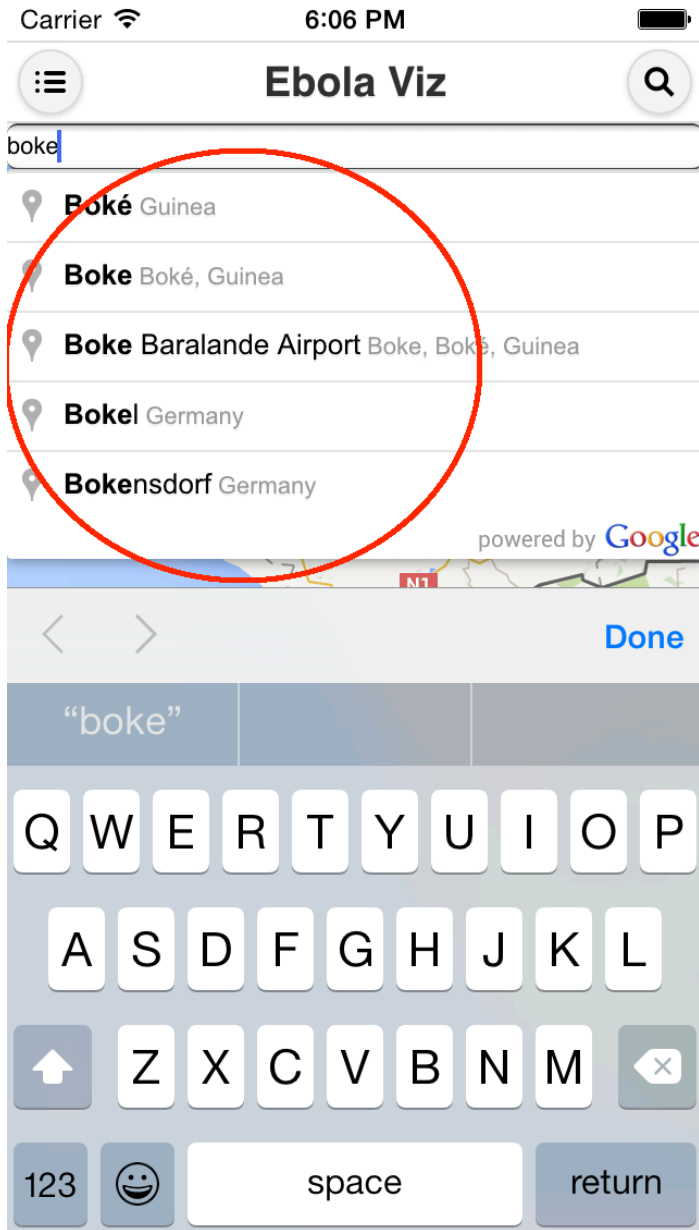

The panel will close by swiping to left. You can choose the page: Ebola, Influenza, Ebola Trend or about by clicking it. The Ebola page and Influenza page display the world map with Ebola cases locations and influenza cases location. The Ebola Trend page shows the disease trending by weeks. The About page provides a brief introduction about this app.

Click the **address search** button, a text input field will be shown:

Enter the address you want to search in the input field. While you are typing, a dropdown pick list will be shown:

Click the address you want in the list, you will be located.
